I was planning on taking both since the first class seemed to lay the ground work for the second, and I also need the CLE credits.

If you are interested contact Barbara and she can call and use the Division's credit card to enroll you in the class.

Were you planning to take the beginners class or the advanced?
Sounds like the advanced class would discuss Dimock. I could be interested in that one.
Thanks,
Anne

Trish & Anne,

FYI - I'm the process of registering for this course. It is of general interest to me, and I also need CLE credits.

Since you both work with Hydrofraking I thought you might be interested in the webinar also.

Please let me know if you do decide to register for the class and maybe we can share a the same venue to participate in the webinar together (provided the phones are working in 6212/6208 on 8/31/12).

Bruce
